Experience

AIRI & Moscow State University (MSU)

Deep Learning Researcher

Sep 2025 – Present

Moscow, Russia

- Research in **Generative AI for CAD** and **3D Computer Vision**.
- Co-authored **CADENA** on stepwise CAD reverse engineering – SOTA on BenchCAD, DeepCAD, Fusion360, MCB, and CADENA-Bench.
- Developed the **GMS** (Generalized Match Score) metric for surface reconstruction, correspondence estimation, and point cloud/mesh registration.
- Joint AIRI–MSU–Sber research project; close collaboration with researchers and engineers.

ISP RAS (Russian Academy of Sciences)

Junior Computer Vision Research Scientist

Sep 2024 – Sep 2025

Moscow, Russia

- R&D in Computer Vision with a focus on **Video Copy Detection**.
- Published and presented research “Shazam Algorithm for Partial Video Copy Detection” at IVMEM 2025.

Fast Food Memes (tg@ffmemesbot)

Machine Learning Engineer

Jan 2024 – Aug 2024

Remote

- Built **top-ranked** infinite personalized meme feed for open-source Telegram bot (ffmemes/ff-backend).
- Processed **500k+** memes with OCR in **10** languages (**500/1600/2500** DAU/WAU/MAU, **30k+** daily); flagged **14k+** spam.
- Co-authored 2nd most popular open-source OCR model on mystic.ai (uriel/easyocr-r).

Bauman Racing Team (“Formula Student” Team)

MLOps Engineer

Nov 2022 – Oct 2023

Moscow, Russia

- Created CLI tool to manage docker containers/volumes for driverless car system
- Developed unit testing system for C++ code from scratch
- Built CI/CD pipelines from scratch in JetBrains Space & locally

Education

Skolkovo Institute of Science and Technology (Skoltech)

Master’s in Artificial Intelligence and Machine Learning

Sep 2026 – Aug 2028

Moscow, Russia

Bauman Moscow State Technical University

Bachelor’s in Mathematics and Computer Science

Sep 2022 – Aug 2026

Moscow, Russia

- *GPA:* 4.2/5
- *Thesis:* Partial video copy detection using audio-fingerprinting-inspired algorithms (published at IVMEM 2025).
- *Academic Projects:* Built the **official final exam generator** for the Department of Theoretical Mechanics (FS3), serving 170+ students each semester and still in active use.
- *Leadership:* **Founded and led** one of the largest teams (20+ members) in the **BMSTU Math Olympiad Club**, organizing training sessions and competing in 10+ inter-university olympiads.
- *Extracurriculars:* PEBW (Proficient English in Business World program), Chess.

Publications

- Kabisov, S., et al. (incl. **Uzdenov, R.**). “CADENA: Stepwise CAD Reverse Engineering.” *arXiv preprint arXiv:2608.00799*, 2026. [Paper]
- **Uzdenov, R. Sh.**, Perminov, A.I. “Shazam Algorithm for Partial Video Copy Detection.” *Proceedings of ISP RAS*, 2025. [Paper]

Skills

Programming Languages: Python, SQL, C++, Bash

ML/DL Stack: PyTorch, Transformers, OpenCV, Open3D, Trimesh, PEFT, TRL, vLLM, NumPy, Pandas, Matplotlib, Scikit-learn

Tools & Platforms: Docker, Git & GitHub, LaTeX, Comet, Airflow/Prefect

Techniques: World Models / JEPA, Reinforcement learning, model evaluation, LoRA fine-tuning, GraphRAG/RAG, LLM inference

Languages: English (Full professional proficiency), Russian (Native)

Projects

Optimizing GraphRAG for Enhanced RAG Pipelines

Jul 2025

Team project at Yandex StudCamp on NLP & NSU

On-site

Optimized GraphRAG via **LoRA fine-tuning on Qwen3-4B** for Russian NER/RE; integrated into open-source RAGU.

Certifications

Higher School of Economics Winter School in Computer Science 2026 with **Faculty of CS HSE** (Credential)

Feb 2026

Yandex StudCamp on CV & Autonomous Transport with **Faculty of CS HSE** (Credential)

Oct 2025

Yandex StudCamp on NLP with Novosibirsk State University (NSU) (Credential)

Jul 2025

Yandex Lyceum 2-year program (Credential)

Apr 2021

Honors & Awards

Ya.Profi Olympiad by Yandex (the largest in Russia for university students)

Winner [top 0.88% among 200k participants] in the "Math Modeling" category

May 2026

RUDN Math Olymp – 3rd degree diploma (individual)

Dec 2024

RUDN Math Olymp – 3rd degree diploma (both individual and team)

Dec 2023

BMSTU Math Olympiad – 2nd place among 2nd-year students

Nov 2023

Formula Student Russia (Class EV & DV)

Aug 2023
